Apply Now

Company: PRI

Location: Maputo

Category: other-general

Overview

We are hiring!

Our client in Maputo is looking for a Business Analyst to join their team. The ideal candidate will have a deep understanding of the Business and IT Sectors and a proven track record in the relevant field.

To apply or for more information follow the link below.

Responsibilities

Liaise with the Operating Companies' and the Group to capture their 'Business Requirements' and to produce common Requirement Specifications & Use Cases to support the development and launch of innovative solutions and products.

Conduct workshops with all participating Operating Companies' and the Group to ensure Group-wide approval of all requirements specifications & use case material is achieved.

Verify & approve all design solutions and test cases to ensure the business requirements have been met.

Deliver improvements to the Business through standardizing Requirement Specifications, Use Cases, Test Cases and synergy identification documents.

Consolidate and harmonize business requirements for developments resulting in cross development synergies.

Requirements

Degree in Science/computer science/Engineering/Business related.

Professional qualifications in Systems development, Business Analysis, project management or IT architecture.

4-6 years' experience as a systems developer/business analyst in a busy IT development environment, and at least 2 years in the Requirements Analysis function & Solutions Architecting function.

Business analysis skills (Advanced level) – demonstrated experience producing requirements that support test-driven development.

In-depth knowledge of software development in a development organization and processes (e.g. software development lifecycle) – In-depth knowledge of both ERP and CRM capabilities a must.
