

Marine Site Superintendent

[Apply Now](#)

Company: BESIX

Location: Mozambique

Category: other-general

Job Description

You are responsible for management, development and planning of marine construction sites.

You direct all aspects of the day-to-day execution of the project, and you monitor and coordinate work performed by site superintendents and skilled workers.

You plan the resources.

You implement and oversee the ISO & VCA norms.

You select, audit and supervise subcontractors.

You maintain regular contact with the customers or their representatives.

You attend and lead site meetings.

You report directly to the Construction Manager or Project Director on the progress and output of your own teams and suppliers.

Qualifications

You have a civil engineering degree in construction (master or bachelor);

You have at least 6 to 8 years of experience within the construction industry and preferably with marine works;

You are fluent in English. Any additional language is an asset;

You demonstrate ability to work effectively and efficiently in a constantly changing business environment, you know how to deal with failures and look critically at your own work;

You anticipate standard situations, take initiative and make suggestions, you challenge prevailing assumptions;

You plan, organize and prioritize your own work; you seek confirmation of priorities when confronted with unusual situations, and your report on the state of affairs;

You understand your role in the team and in the broader departmental organization; you document best practices and coach one or more specialists;

Demonstrated commitment to Environment, Safety and Health;

Demonstrable commitment to a Zero Accident safety program;
