Company: Cadmus

Location: Maputo

Category: other-general

Overview

What You'll Be Doing

Nathan, a Cadmus Company, invites experienced consultants with experience in the following countries (Belize, Benin, Cote d'Ivoire, The Gambia, Indonesia, Kenya, Kosovo, Malawi, Mauritania, Mozambique, Nepal, Niger, Senegal, Sierra Leone, Togo, Zambia) to submit their CVs for consideration for short-term, on-demand technical advisory and project management assignments focused on improving the integration of gender and social inclusion considerations into energy and transportation sector activities.

Consultants with the following skillsets and expertise will be particularly competitive:

Gender and Agriculture

Civil Society Strengthening

Gender and Energy and/or Climate

Gender and Land and Property Rights

Female Transport Safety

Gender and Transport

Gender and Safeguarding

Gender Responsive Human Resources

Inclusive Electricity Operations

Productive Uses of Electricity

Pro-Poor Regulations in the Energy and Transport Sectors

Qualitative and Quantitative Research

Trafficking in Persons

Women's Entrepreneurship and Value Chains

Women's Economic Empowerment

Consultants should possess direct and relevant professional experience in one or more of the areas above, prior experience working on donor-funded programs or projects, and proven consulting skills.

Who We Are

At Nathan, a Cadmus company, we recognize that solving the world's most challenging problems can't be accomplished alone or with cookie-cutter solutions. That's why we look for team players and problem solvers who are driven to use their unique perspectives and intellectual curiosity to help deliver breakthrough solutions that achieve transformative goals. On the Nathan team, you'll collaborate with leading experts to help our clients across the globe. Nathan's mission is to deploy industry-leading expertise to help our clients achieve extraordinary results that strengthen society and the natural world. We offer competitive compensation, outstanding health care and retirement benefits, a vibrant and collaborative work environment, and opportunities for professional growth. We are committed to advancing diversity and fostering a culture of equity in the workplace and across society, and we strive to maintain an inclusive environment where all employees feel connected, respected, and valued.

Nathan, a Cadmus Company, is a leading provider of analytic and economic consultancy services worldwide. In the past decade, we have implemented more than 120 projects in more than 50 countries leveraging our global presence in Washington DC, London, and India. From improved transparency and deeper stakeholder engagement to more effective policies and more resilient businesses, we deliver results that impact economic growth, human development, and poverty reduction. We are passionate about applying our deep analytical

expertise and advanced proprietary tools to generate economic solutions tailored to our clients' unique challenges. Nathan focuses on a range of economic development subject matter areas including Trade & Logistics; Economic Policy & Governance; Private Sector Development; Women's Economic Empowerment; and Financial Solutions.

Join Nathan, a Cadmus Company. Let's solve the world's most challenging problems together.

Responsibilities

Consultants will be engaged in tasks as directed by the client on an on-demand basis.

Illustrative tasks may include:

Conduct research related to gender in the transport or energy sectors, including qualitative and quantitative data collection (. focus group discussions and key informant interviews), analysis, and reporting

Collect and synthesize background information through desk research

Provide analysis and technical recommendations for gender and inclusion-focused activities, building on project and activity assessments and design work already undertaken

Provide technical guidance, input and support pertinent to existing and planned MCC activities

Support plans for capacity building among key partners on inclusion and gender

Support oversight of the implementation of activities and assess adequacy of implementation, as well as recommendations for any course correction

Support for reviewing training materials, protocols and procedures

Identify best practices and lessons learned

Conduct quantitative analysis, including GIS, using various statistical software

Qualifications

Bachelor's Degree or higher; plus at least four years of relevant work experience

Experience coordinating with MCC or similar donors to deliver quality technical results (MCC experience strongly preferred, though not required)

Demonstrated knowledge and experience guiding and undertaking research and integration of gender and social inclusion issues in project designs, assessments, management plans, studies, and in procurement and contract documents

Significant experience working in the energy or transport sectors in developing countries, with country-specific experience preferred

Experience working with different technical experts (including economists, engineers, environmental and social safeguard specialists, TIP expert and other sector experts), government officials, NGOs, community organizations, and other country stakeholders

Candidates based in designated countries are particularly encouraged to apply

Ability to speak, read and write in English; French language skills a plus
