

## Service Provider to support EPI in Assessing Barriers to Immunization (with a Focus on Zero Dose and unimmunized Children)

[Apply Now](#)

Company: Jhpiego

Location: Maputo

Category: other-general

Responsibilities

### Objectives

The objective of the assignment is to:

Conduct a desk review on zero dose and unimmunized children, with a focus on provinces and districts with zero dose children and unimmunized children looking specifically at behavioral/health seeking data and studies in order to:

Identify supply and demand side barriers to zero dose and under-vaccination (including gender-related barriers);

Identify existing and emerging CBOs to include in the EAF to support demand generation and community engagement activities;

Determine whether prenatal records can be linked to immunization after birth (continuity of care);

Where gaps are identified, make use of all available channels to secure additional information and insights that can help EPI stakeholders to address these gaps. This may require online research, engagement with academic institutions, international and local NGOs/CSOs as well as the private sector and / or professional associations to implement participatory assessments with representatives of specific communities and care providers, and other methods of data collection.

Consolidate key pieces of information collected throughout this process to lay out clearly where coverage gaps exist and the key underlying causes that contribute to those gaps

Cross verify with , particularly the sessions on “Identify” – and Understand and listen (., why)

Sinthesize findings and make a preliminary presentation;

Submit a final report writing in Portuguese.

Facilitate and coordinate a country-led process involving local, national and sub-national stakeholders to identify suitable solutions to reach these children and their communities.

The outcomes of this exercise will be used during the EAF proposal development workshop.

### **Required Qualifications**

Advanced degree (Masters Level) in a relevant field (social sciences, medical anthropology, sociology, public health).

Minimum 5 years’ experience in field research (social sciences).

Minimum 5 years’ experience in qualitative research methodologies.

Minimum 5 years’ in qualitative studies review/and capability to synthesize.

Excellent communication and writing skills in both Portuguese.

### **Preferred Qualifications**

Experience working on USG contracts a plus

Jhpiego offers competitive salaries and a comprehensive employee benefits package.
