Company: John Snow, Inc

Location: Maputo

Category: other-general

RESPONSIBILITIES

Determines strategies and priorities for the program's technical work in conjunction with the technical advisors/leads, partners and in-country teams in collaboration with appropriate USAID staff.

Provides overall technical oversight of and encourages innovation and technical excellence in all program activities.

Supervises technical staff and guides their work and short-term technical assistance activities.

Provides assistance in the development and application of strategies and tools for periodic evaluation of the impact of project activities.

Develops and coordinates quantitative and qualitative analyses to provide insight on interventions to improve system strengthening and service delivery of MNCH, immunization, and nutrition programming across all levels of the health system.

Ensures that MNCH, immunization, and nutrition technical frameworks, tools and lessons are made widely available and that lessons are disseminated at local, district, and national levels.

Serves on the SMT to ensure development, integration, implementation, and collaboration of system processes and tools essential to project success.

Reviews deliverables for completeness, accuracy, and overall quality.

Addresses, in conjunction with the SMT, challenges facing the program that impact technical approaches.

Provides strategic guidance to the documentation and dissemination of project results.

Lead annual performance assessments, goal setting, and assist professional development for directly reporting technical staff.

QUALIFICATIONS

Medical degree, master's degree in public health or related field or equivalent experience.

Minimum of 12 years of progressive experience including management experience in large complex international development projects with extensive local, district, and central service delivery implementation components.

Experience in strengthening integrated health service delivery systems and public health in Mozambique or other countries in East Africa.

Experience managing subcontractors/partners as part of cooperative agreement service delivery.

Experience in participating in relevant technical working groups at the national or sub-national level.

Proven track record that demonstrates leadership skills, project management, budget and resource management experience, and client relationship management capability.

Demonstrated program management competency and effective communication skills in dealing with clients, partners, and other public health professionals.

Ability to work in diverse settings with public, private, and NGO sectors.

Fluency in English and Portuguese with strong oral and written communication.

Mozambican nationals are strongly encouraged to apply

Salary commensurate with experience.
