### Responsibilities

Provide technical oversight, strategic direction and definition of appropriate project activities

Establish and implement a system to ensure technical quality of project activities

Develop and/or update evidence-based training materials, standards, job aids, and curricula, supervisory systems needed for implementation of the Project to meet the needs of USAID and the Government of Mozambique

Provide mentoring and capacity building at the individual and organizational level in specific areas of expertise

Provide technical assistance for conducting site assessments and strengthening referral systems, in-service and/or pre-service education, and supportive supervision

Coordinate advocacy, demand generation, and policy support, across project sites as required

Lead the formulation of innovative approaches for scale up of targeted MNCH, immunization, and nutrition services

Actively participate in relevant technical advisory/working groups and professional forums representing Jhpiego

Work with health care providers, local authorities, community members and project team

members to identify MNCH service delivery issues that impede access to care and uptake of services

Identify and implement appropriate facility- and community-based strategies to address MNCH service delivery gaps

Identify training needs for clinical and community healthcare providers and assist in the design and implementation of measures to address those needs

Work closely with the Chief of Party to set project priorities and directions, and responding to requests for support from local counterparts

Work with M&E staff to design, implement a plan to track data/results related to MNCH and immunization to inform adjustments in project implementation

Collaborate with all local stakeholders and implementing partners, especially the Ministry of Health and other US and international implementing partners, to ensure that all activities conform to the requirements and regulations

Document successes, lessons learned and challenges in implementation as well as reports of project activities and results to the project and donor, including routine quarterly and annual reports and other reporting requirements as requested

Document and maintain an inventory of successful tools and approaches for MNCH, immunization, and nutrition

Author/co-author abstracts, presentations, and articles for journals and conferences

Supervise technical staff

Manage technical contributions of subgrantees, including defining scopes of work

Maintain excellent relationships with USAID and in-country stakeholders and develop rapid responses

Provide technical leadership to the development the project strategic plan, work plan, and project monitoring, in close collaboration with the MOH, USAID, and other stakeholders to ensure timely implementation and compliance to the requirements and regulations of the award

## **Required Qualifications**

A Medical Degree (doctor or nursing), and Master of Public Health preferred

At least 10 years of experience in implementing and/or providing technical assistance in MNCH and immunization on donor-funded projects and in the design and implementation of health projects preferably in Mozambique

Demonstrated experience training clinical and community-based healthcare workers on MNCH

Demonstrated experience providing capacity building assistance at individual and organizational levels

Skilled in at least two or more of the following technical areas: strengthening service delivery projects; training; pre-service education; performance and quality improvement; monitoring and evaluation

Demonstrated experience with a mix of practical technical skills in MNCH necessary for strengthening MNCH service delivery at the regional, national, clinical and community-level

Demonstrated in-depth understanding of Mozambican healthcare system, particularly the public health system, experience living and working in Mozambique preferred

Familiarity with USAID's administrative, management and reporting procedures and systems

Proven track record managing a project team composed of several technical experts and fostering team work

Excellent diplomacy skills and a proven ability to establish and maintain interpersonal and professional relationships with USAID host-country counterparts and representatives from other key stakeholders such as NGOs, CSOs, and the private sector

Expertise in research to practice—identifying and adapting best practices to specific project contexts

Excellent verbal, written interpersonal and presentation skills in English and Portuguese

Proficiency in Microsoft Office

Ability to travel nationally to project sites

Jhpiego offers competitive salaries and a comprehensive employee benefits package.
