

## Technical Office Manager (Marine Works)

[Apply Now](#)

Company: BESIX

Location: Mozambique

Category: other-general

### Job Description

For the construction of new project (Marine works - Jetty) in Mozambique, we are looking for a Technical Office Manager.

As a Technical Office Manager you are responsible of the implementation and coordination of the technical side of a large site project and you report directly to the Project Director.

You coordinate and manage all specific tasks in the Technical Office:

Manage a team of technical and administrative staff and specialists (e.g. structural engineers, method engineers, logistic managers, planning manager and assistants, BIM coordinators, architects and technicians, MEP managers, hardware specialists, etc.);

Managing the organization and planning of the site team activities in order to determine the short-term priorities of the work area and maximize quality, efficiency and continuity;

Deal with complex and difficult customer demands;

Other specific trades (steel structures, complex concrete prefabrication unit, etc) are applicable (related to the type of project);

### Qualifications

You have a Master degree in civil engineering;

You have proven a track record with a least 15 years of relevant working experience within a major construction company, having managed large complex construction projects (> 100 million €) especially in marine works;

You identify with our core competencies by possessing an entrepreneurial mind, showing flexibility, being innovative and result-oriented while promoting teamwork;

You continuously look to do things better and you anticipate problems. When a problem is detected you are able to solve it with your team;

You possess excellent communication skills, an analytical mind and you are client focused;

You manage the activities of your team members, you motivate and coach them;

You are fluent in English. Speaking another language is an asset;
